

Cost Reporting Services

The professional staff at The Health Group, LLC has been serving healthcare providers for over 30 years. Our cost reporting clients include proprietary, tax-exempt, freestanding, provider-based, small, and national chain providers. Quality cost report services require a thorough understanding of healthcare activities generally, an understanding of the client's services and activities, an understanding of the client's financial and recordkeeping capabilities, and an understanding of general and provider-specific cost reporting requirements. The Health Group, LLC is committed to being an industry leader in healthcare cost reporting and the healthcare financial environment. Our proactive commitment to the healthcare industry is demonstrated in all the services we provide including cost reporting.

Accounting, financial reporting and tax services are available through our affiliate, Gray Griffith & Mays – Morgantown, PLLC.
