

Home Health Cost Reporting

The professional staff at The Health Group, LLC has been serving home health agencies for over 30 years. Our home health cost reporting clients include proprietary, tax-exempt, freestanding, provider-based, small, and national chain providers.

Quality cost report services require a thorough understanding of home health activities generally, an understanding of the client's services and activities, and understanding of the client's financial and recordkeeping capabilities, and an understanding of home health and general cost reporting requirements. The Health Group, LLC is committed to being an industry leader in home health cost reporting and other financial and compliance needs. Our proactive commitment to the home care industry and our home health clients is demonstrated in all the services we provide including home health cost reporting.

While our affiliate, Gray Griffith & Mays – Morgantown, PLLC, provides tax and financial reporting services for many of our home health clients, we also work closely with other accounting firms, who may be servicing our cost reporting clients. This cooperation provides for consistency between financial reporting, tax filings, and cost report filings.

State Cost Report Filings

Many of our home health clients are required to make state cost report and/or other financial filings. We regularly prepare these reports. Our experience with required federal and state filings allows us to readily adapt to unique filings that may be required of the home health agency.

Home Health Alert

The Health Group, LLC publishes the "Home Health Alert", a complimentary email service updating our clients and professional associates of home health financial issues of importance to the financial management of home health providers. Topics include compliance, regulatory, and operational issues in addition to financial issues.

Other Services to Home Health Agencies

In addition to cost report services we are available to provide accounting, tax, financial reporting, CAP reporting and assessment, corporate compliance, Medicare enrollment, state licensure, and other financial and consulting services to our home health clients. Contact us at contact@healthgroup.com or (304) 241-1261 to discuss your financial, compliance, cost reporting, or other consulting needs.
