

Hospice CAP Reporting

The professional staff at The Health Group, LLC has been assisting hospices in estimating and reporting CAP liabilities for years. Hospices are now required to self-report their CAP liability on or before five (5) months after the end of the applicable CAP Year.

Quality services require a thorough understanding of the hospice aggregate payment limitation (“CAP”) including annual reporting, handling sequestration, computation of the CAP under both the Proportional and Streamlined methods, and estimating the ultimate CAP liability relating to any respective CAP Year. The Health Group, LLC is committed to being a hospice industry leader, which includes an understanding of all payment restrictions on hospice providers. Our proactive commitment to the hospice industry and our hospice clients is demonstrated in all the services we provide to hospices including CAP reporting and assistance.

CAP Related Services

We provide annual CAP reporting, monitoring CAP related liabilities, preparing requests for Extended Repayment Schedules (ERS), and estimating ultimate CAP liabilities for hospices, and strategic consulting relating to CAP liabilities.

Hospice Alert

The Health Group, LLC publishes the “Hospice Alert”, a complimentary email service updating our clients and professional associates of hospice financial issues of importance to the financial management of hospice providers. Topics include compliance, regulatory, and operational issues in addition to financial issues.

Other Services to Hospices

In addition to CAP reporting and related services we are available to provide accounting, tax, financial reporting, cost reporting, corporate compliance, Medicare enrollment, state licensure, and other financial and consulting services to our hospice clients. Contact us at contact@healthgroup.com or (304) 241-1261 to discuss your financial, compliance, cost reporting, or other consulting needs.
