

Medicare Enrollment Services (CMS Form 855)

The professional staff at The Health Group, LLC has been serving healthcare providers for years. One of the most significant filings by healthcare providers is the CMS Form 855 (Medicare Enrollment Application). This document maintained by the Medicare program represents critical information to secure and retain Medicare billing privileges. Information on file is required to be updated for changes within 30 – 90 days of the change, depending on the nature of the change. Failure to maintain current information on file can lead to a loss of billing privileges and/or revocation.

Our experience with the Medicare Enrollment Application includes initial filings, revalidation of Medicare enrollment, reporting a change of ownership, and updating information on file with the Medicare program. Many of our clients depend on us to monitor changes that need to be reported; however, quite often we are requested to assist providers with one-time reporting or consulting on a particular change of information.

While our affiliate, Gray Griffith & Mays – Morgantown PLLC, provides tax and financial reporting services for many of our healthcare clients, we also work closely with other accounting firms, consultants, and legal counsel to meet the Medicare and state filing requirements. Many of the referrals for these services come directly from legal counsel.

State Filings

Many of our healthcare clients are required to make state application and/or other provider filings. We regularly prepare these filings.

Health Care Alert

The Health Group, LLC publishes the “Health Care Alert”, a complimentary email service updating our clients and professional associates of healthcare financial issues of importance to the financial management of these providers. Topics include compliance, regulatory, and operational issues in addition to financial issues.

Other Services to Healthcare Providers

In addition to enrollment related services we are available to provide accounting, tax, financial reporting, CAP reporting and assessment, corporate compliance, cost reporting, and other financial and consulting services to our healthcare clients. Contact us at contact@healthgroup.com or (304) 241-1261 to discuss your financial, compliance, cost reporting, or other consulting needs.
