- Enable attendees to recognize how current billing and accounting systems address reimbursement and what is necessary to appropriately report revenue and receivables
- Provide attendees with an understanding of the segregation of revenues required for cost reporting purposes
- Provide attendees with an understanding of how the reporting of revenues can assist in the financial management of the hospice
- Enable attendees to develop appropriate revenue budgets and analyze actual revenues against those budgeted

CRITICAL ENROLLMENT REPORTING

This program will focus on the common enrollment issues encountered by hospice providers, as well as include a discussion of enrollment changes proposed and anticipated. This is important as revalidation for many providers is scheduled for the near future. Specifically, the program will:

- Provide attendees with an understanding of how ownership is reported (taxable and tax-exempt entities)
- Enable attendees to establish a program for monitoring changes that need to be reported
- Provide attendees with a practical approach to ensure all critical mailings from the MAC are received (NPI, MAC relationships, and correspondence contacts and addresses)
- Provide attendees with the most current information available on proposed enrollment changes

Program hours are from 10:50 am to 12:10 pm on November 6, 2017.

HOSPICE CAP MANAGEMENT AND REPORTING

Over 10% of all hospices are experiencing reimbursements in excess of the hospice aggregate payment limitation (“CAP”). Inasmuch as hospices are now required to self-report CAP liabilities and calculations are updated for three (3) years from the date of the initial CAP liability notice, management of the CAP is increasingly important. This session is important for all hospices, as more hospices are expected to exceed the CAP going forward and the change in reimbursement methodology may influence this liability. Specifically, the program is intended to:

- Provide attendees with an enhanced understanding of the CAP computation and recalculation
- Enable attendees to understand the self-report and associated requirements
- Illustrate to attendees how the recalculation process works, why liabilities increase with time, and better estimate their ultimate liabilities
- Provide attendees with an understanding of the CAP implication of the new rate structure and change in CAP years beginning in 2017
- Provide attendees with illustrative accounting and financial statement disclosures relating to CAP liabilities

Program hours are from 1:00 pm to 2:15 pm on November 6, 2017.

Speaker: William T. Cuppett, CPA
CPE: 1.5 CPE Credits (Accounting)
Delivery Method: Group-Live
Program Level: Basic
Prerequisite: None
Advanced Preparation: None

CRITICAL FINANCIAL ADMINISTRATIVE MEASUREMENTS

This program is being offered for the first time and will focus on information readily available to hospices. The information will improve the hospice's ability to understand and influence financial results. Specifically, the program is intended to:

- Enable attendees to secure information from the PS&R, which produces significant benchmarks for financial management of the hospice
- Provide attendees with the ability to integrate internally and externally produced information for budgeting and financial assessment

Program hours are from 2:30 pm to 3:45 pm on November 6, 2017.

FOCUS ON IMPROVING THE QUALITY OF YOUR COST REPORT

Most hospices will have submitted one (1) or two (2) cost reports on the new Hospice Cost & Data Report by the date of the program. This program will focus on those areas where hospices can influence the quality of their cost report submission and utilize the information made available by the cost report. Specifically, the program will:

- Provide attendees with examples of enhancements to accounting records that improve the entire cost reporting process and enhance the quality of the cost report submission
- Enable attendees to accumulate information that has been lacking in current cost report submission
- Enable attendees to understand the influence of organization structure and multiple-provider organizations on the cost report, including home offices
- Enable attendees to quickly review their cost report submission for reasonableness and general quality (checklist provided to attendees)
- Assist attendees to accumulate information appropriately in those areas where experience reflects a lack of quality
- Provide attendees examples of how difficult transactions are addressed in the cost report submission, i.e. related party transactions, residential and inpatient units, and others
- Provide attendees with information on changes forthcoming, including electronic signatory options

Program hours are from 9:00 am to 2:15 pm on November 7, 2017.
